# ABOUT OUR RESIN FLOORING

**Resin Flooring provides the following benefits:**

## HARDWEARING

A durable, hardwearing, long lasting surface – resistant to heavy use and machinery.

## LOW MAINTENANCE

The smooth texture coating is incredibly easy to clean – you'll only need a broom or a mop to get rid of any dirt or stains

## CHEMICAL RESISTANT

The non-porous surface makes it difficult for chemicals and stains to penetrate and resonate.

## SLIP RESISTANT

Specifically designed to prevent slips and falls in industrial areas. Most epoxy floors are also resistant to heat.

## COST EFFECTIVE

It's far more effective than other flooring options such as concrete and provides greater value for money and increased longevity.

## FINE AESTHETIC

In comparison to many other systems, epoxy resin is a much more attractive flooring option – it's colourful, bright, shiny and generally more pleasing to the eye.

## VERSATILE

Epoxy flooring can be used for a huge variety of applications and locations including garages, factories, warehouses, restaurants (i.e kitchens) hospitals, hotels, retail stores, aircraft hangers, car show rooms and so on.

## Epoxy Floor primers

1. **SP CONPRIME 72** : Epoxy flooring primer with concrete penetrating properties.
2. **SP KOTPRIME 74** : Epoxy pigmented primer for flooring tiles, kota floors & other treated stones.
3. **SP CONPRIME 76** : Epoxy primer for concrete floors.

## Epoxy Floor undercoats

1. **SP SLSCREED 821** : Heavy duty Epoxy self-levelling screed coat for 1 mm thickness
2. **SP SLSCREED 822** : Heavy duty Epoxy self-levelling screed coat for 2-4 mm thickness
3. **SP HDSCREED 805** : Extra Heavy duty Epoxy self-levelling screed coat for 5-10 mm thickness

## Epoxy Flooring self-levelling topcoats

1. **SP FLOTOP 851** : Epoxy self-levelling, solventless, glossy topcoat for 1 mm thickness
2. **SP FLOTOP 8500** : Epoxy self-levelling, solventless, glossy topcoat for 500 microns
3. **SP FLOTOP 852** : Epoxy self-levelling, solventless, glossy topcoat for 2 mm thickness
4. **SP EPUTOP 850** : Epoxy-polyurethane self-levelling, solventless, glossy topcoat for 1 mm thickness for better abrasion resistance
5. **SP METOP 853** : Epoxy self-levelling, solventless, glossy, clear topcoat for metallic / designer flooring
6. **SP FLOTOP 855** : Epoxy self-levelling, FOOD GRADE Flooring

## PU Concrete

Toughest Polyurethane concrete flooring for extra ordinary chemical & mechanical resistance. Recommended in Food, Pharma & Beverages plants.

- 1) **SP PCP 21** : PU primer / scratch coat
- 2) **SP PUCRETE 100** : Self levelling PU concrete flooring for 3-6 mm thickness.

## Thin film floor coatings

1. **SP TFCOAT 710** : Epoxy coating, glossy, medium duty, 200  $\mu$  thickness for indoor application with chemical resistance
2. **SP TFBOND 950** : Polyurethane coating, glossy, medium duty, 200  $\mu$  thickness for outdoor durability
3. **SP TFBOND 952** : Polyurethane coating, glossy, medium duty, 200  $\mu$  thickness for indoor application with better abrasion resistance
4. **SP EPUTF 790** : Epoxy-Polyurethane coating, glossy, medium duty, 200  $\mu$  thickness for indoor application with abrasion & chemical resistance

## Other allied products

1. **SP EPOTCO 507** : Epoxy resin & hardner suitable for joint filling paste / grouting, floor repairing mortar, coving mortar
2. **SP FILLER 123** : Epoxy resin & hardner suitable for Epoxy putty
3. **SP FCBOND 900** : Aliphatic Polyurethane paint for bay marking on outdoor floors
4. **SP FCBOND 902** : Aromatic Polyurethane paint for bay marking on indoor floors
5. **SP EPOCOAT 700** : Epoxy paint for bay marking on indoor floors

## TYPICAL APPLICATIONS

### INDUSTRIAL & MANUFACTURING

- Heavy/Light Engineering Plants
- Automobile & Locomotives Factories
- Electrical & Electronics Units
- Refineries, Chemical & Beverage Processing Plants
- Distilleries, Textiles, Fertilizer & Pesticides mfg. Plants
- Papers Mills & Water Treatment Plants
- Chemicals Containment area

### HEALTH CARE

- Pharmaceuticals & Laboratories
- Hospitals & Blood banks
- Veterinary Clinics

### COMMERCIAL & INSTITUTIONAL

- Hotels & Automobile show rooms
- Sports & Entertainment centers
- Shopping Malls
- Computer Rooms & Science Labs
- Ramps & Walkways

### TRANSPORTATION

- Aircraft Hangers & Decks
- Warehouses & Transportation terminals
- Garages & Vehicles Maintenance areas

### HYGIENIC AREAS

- Food Processing & Dairy Plants
- Poultry & Meat plants
- Clean rooms & Cold storages
- Sterile areas & Humidity controlling
- Tissue Culture & Mashroom plants

ISO 9001 : 2015 Certified Company
